STS WORLDWIDE SHIPPING

...your worldwide reliable logistics provider.

INTRODUCTION

A

t STS Worldwide Shipping we have evolved over the years to become a first-class freight forwarding (air and sea) company with presence in all continents.

Our international head office is in Houston, Texas, USA; while our Nigerian head office is in Lagos with branches in Port-Harcourt and Abuja. We are committed to providing multi-modal freight forwarding, shipping and total logistics services.

STS Worldwide Shipping services cover the world's major markets. We handle most types of goods, ranging from machinery, equipment, automotive/marine, industrial and construction equipment, special project equipment, medical equipment, oil and gas equipment, home furnishings and garden furniture, fine art, electrical and audio/visual products, international relocation (corporate and residential), door to door services, personal and household effects, removal/storage, exhibition/live event, touring cargo and much more.

OUR BELIEF

➡ PASSION

At STS Worldwide Shipping, our world revolves around our customers and to excel in all ramifications of freight forwarding and logistic locally and internationally. Our passion is the promotion of a sound service delivery culture where highest premium is placed on achievement of "CUSTOMER DELIVERY" with a humane disposition in all our business transactions.

➡ MISSION

To eliminate all stress and anxieties associated with freight forwarding and logistics, procurement and other activities associated with supply chain process (local and international) with the overall objectives of eradicating the losses and maximizing the profits of our clients.

➡ VISION

To be an integrity-driven logistics company that adapts modern management techniques to attain high customer satisfaction.

Core Values

A **Accountability:** At STS Worldwide Shipping, it is our responsibility to be accountable for our activities and services provided to our clients. We believe in transparency in dealing with our clients.

D **Delivery:** We ensure all consignments get to their final destination in an excellent condition at the stipulated time as agreed with our clients.

A **Add Value:** In providing excellent services to our clients, we make ensure timely delivery and proficiency.

P **Professionalism:** Every business transaction and activities at STS Worldwide Shipping is conducted professionally and efficiently.

T **Trust:** We strive to earn the trust of our clients and every party involved through transparency and diligence.

Freight Forwarding

STS Worldwide Shipping is a pacesetter in the freight forwarding industry in the USA, Nigeria and all over the world rendering top class freight forwarding services to importers and exporters in all industries worldwide.

Our goal is to provide excellent and speedy transportation solutions. Our services incorporate both sea and air freight on a door-to-door basis, with our excellent mode of operations which enable us to expedite the processing of customs documentation efficiently even with our global network partners.

We provide a vast range of services that cover anything from basic transportation to major logistics projects tailored to individual customer needs.

- Air freight
- Ocean Freight
- Door to Door Deliveries
- Customs Clearing
- Project Cargoes
- Warehousing
- Third Party Logistics
- Inland Trucking

STS Worldwide Shipping offers procurement services that provide the equipment and materials that meet the ever-increasing standards of our clients in all industries and for any kind of projects.

Our dedicated supply chain partner and the OEM as well as warehousing and stock holding capabilities, has established us as a supplier of choice to the major international companies.

Thanks to our in-house IT systems, experienced supply chain and logistics professionals, as well as competitive credit facilities with major American and foreign banks. Whatever oil and gas services require from us – inventory or project related items – we will respond efficiently and provide our clients with premium products at competitive rates, delivered precisely when required.

Logistics & Warehousing

STS Worldwide Shipping has successfully integrated multi-modal transport concepts into its daily operations. With this broader vision, cargo no longer travels to gateway ports to await consignee intervention. Our staff are trained to drive the process, culminating in goods being delivered across multiple borders through various transport means in the shortest possible time frame.

Another key advantage is having the expertise on the ground at destination points to effectively and efficiently clear cargo through the potentially complicated maze that is synonymous with customs procedure.

STS Worldwide Shipping provides door to door, multi-modal services not only to the major trade routes, but also to small, remote areas, which are not regularly serviced by our competitors. We also handle exportation of both commercial and household goods to any part of the world on door-to-door basis. Whatever the project, wherever the destination, STS Worldwide Shipping will document, plan and execute deliveries.

International Relocation Services

Your international relocation service needs are important to us. We will listen first and act second. Our team of highly qualified international moving specialists will personally oversee your international moving services every step of the way—from initial planning at origin to final unpacking in your new location.

STS Worldwide Shipping is an expert in moving household goods internationally. Each international move is handled with experience, training and proven techniques to assure quality results worldwide. Moving internationally is different than moving around the block.

Through our network of movers, STS Worldwide Shipping will facilitate the loading of secured ocean containers and/or waterproofed sealed lift vans for your surface shipment. Air freight shipments are secured in unique tri-walled containers that are banded and labeled with your new location information. Global moving schedules are coordinated with the steamship lines and airlines partners through your single point of contact.
